

Infection Prevention with Confidence!

In the war against microbes, Accel® Disinfectants are the first line of defense for Infection Prevention. Accel® provides comfort and confidence that commonly touched surfaces and instruments are rendered safe to use.

Accel Hydrotherapy+ is designed for use as a cleaner and disinfectant for foot baths and hydrotherapy tubs where the requirement for broad-spectrum germicidal performance in a short contact time is required. Accel Hydrotherapy+ carries a five minute disinfectant contact time against vegetative bacteria, enveloped and non-enveloped viruses and fungi.

EFFICACY OF ACCEL SURFACE CLEANER & DISINFECTANT

GENERAL VIRUCIDE (5 min.): Proven effectiveness against the Polio Virus, Sabin strain type 1 allows for a General Virucide claim against most enveloped and non-enveloped viruses. Human Immunodeficiency Virus (HIV), Norovirus (Feline Calicivirus as surrogate), Human Rhinovirus, Human Rotavirus, Canine Parvovirus, Human Coronavirus, Duck Hepatitis B Virus, Human Hepatitis C Virus

BACTERICIDAL (5 min.): *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Salmonella choleraesuis*

FUNGICIDAL (5 min.): *Trychophyton mentagrophytes*

BROAD-SPECTRUM SANITIZING: (30 sec.): *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Staphylococcus aureus* (Gentamycin and Methicillin resistant, MRSA), *Enterococcus faecalis* (Vancomycin resistant, VRE)

PREVENTS THE FORMATION OF BIOFILMS

DIRECTIONS FOR USE

(HEAVILY SOILED SURFACES REQUIRE CLEANING PRIOR TO DISINFECTION)

DILUTIONS:

Determine method for the dispensing of Accel Hydrotherapy+ - 4% AHP Concentrate at a ratio of 1:16 for purging or disinfecting, 1:128 for sanitizing. Accel Hydrotherapy+ carries a 24 month shelf life opened or unopened. Expiry date is listed on original product label.

DILUTION CHART

Ratio	Per 1 US Gallon	Per 20 L Water
1:128	1 oz.	160 ml
1:16	8 oz.	1280 ml

Note: Accelerated Hydrogen Peroxide Surface disinfectants (Accel TB Ready to Use) can be used on hand contact surfaces of tubs where a greater degree of care is required or desired.

INITIAL INTRODUCTION PURGING (5 Minutes)

Fill tub with cool water to above the water jet line. Add Accel Hydrotherapy+ at **1:16 (1 part Accel Hydrotherapy+ to 15 parts of water)**. Allow Accel Hydrotherapy+ to sit in tub lines for a minimum of 5 minutes to facilitate the removal of biofilms. To reduce the generation of foam, add Dow Corning Antifoam (Antifoam 1410 or Antifoam C - contact Virox Technologies Inc. for product distribution). Detailed protocols for Foot Baths, Birthing Tub, Turbine or Jetted Hydrotherapy Tub can be found on the Virox website at www.virox.com.

DISINFECTION AND PREVENTION OF BIOFILM FORMATION (5 Minutes)

Fill tub with cool water to above the water jet line. Add Accel Hydrotherapy+ at **1:16 (1 part Accel Hydrotherapy+ to 15 parts of water)**. Turn on the pump to circulate. Let stand for 5 minutes. Surfaces inside tub can be scrubbed with a brush or washed with a sponge or cloth. Drain tub. Re-fill tub with cool water to above the jet line. Turn on jets for 1 minute to rinse. Drain tub.

BROAD-SPECTRUM SANITIZING MAINTENANCE (30 Seconds)

Fill tub with cool water to above the water jet line. Add Accel Hydrotherapy+ at **1:128 (1 part Accel Hydrotherapy+ to 127 parts of water)**. Turn on the pump and allow the water to circulate for 30 seconds. Ensure surfaces have been scrubbed. Drain then rinse.

Accel Hydrotherapy+

Product Number	ACCHYD4
DIN #	02300656
Concentration of Active	4% Hydrogen Peroxide
Container Size	4L
Dilution	1:16 For disinfection and prevention of Biofilm formation 1:128 for sanitizing
Shelf Life	24 Months
